TRANSFORMING
SMART HOSPITAL

INTRODUCTION

MacroHealthPlus a comprehensive healthcare practice management system, established in 2012.

Our Software integrated with **MIMS**, ensures **precise and error-free communication** between doctors and patients. From streamlined patient screening to simplified billing, we're reshaping efficiency in medical practices.

MacroHealthPlus (MHP) proposes a comprehensive model integrating Hospital Management Systems (HMS), AI-powered EMR, IoT monitoring, and data analytics into a unified platform.

01

VISION

MacroHealthPlus wishing to help the healthcare organizations; delivering world-class health services, through digital systems and data-driven decisions with paperless concept.

02

MISSION

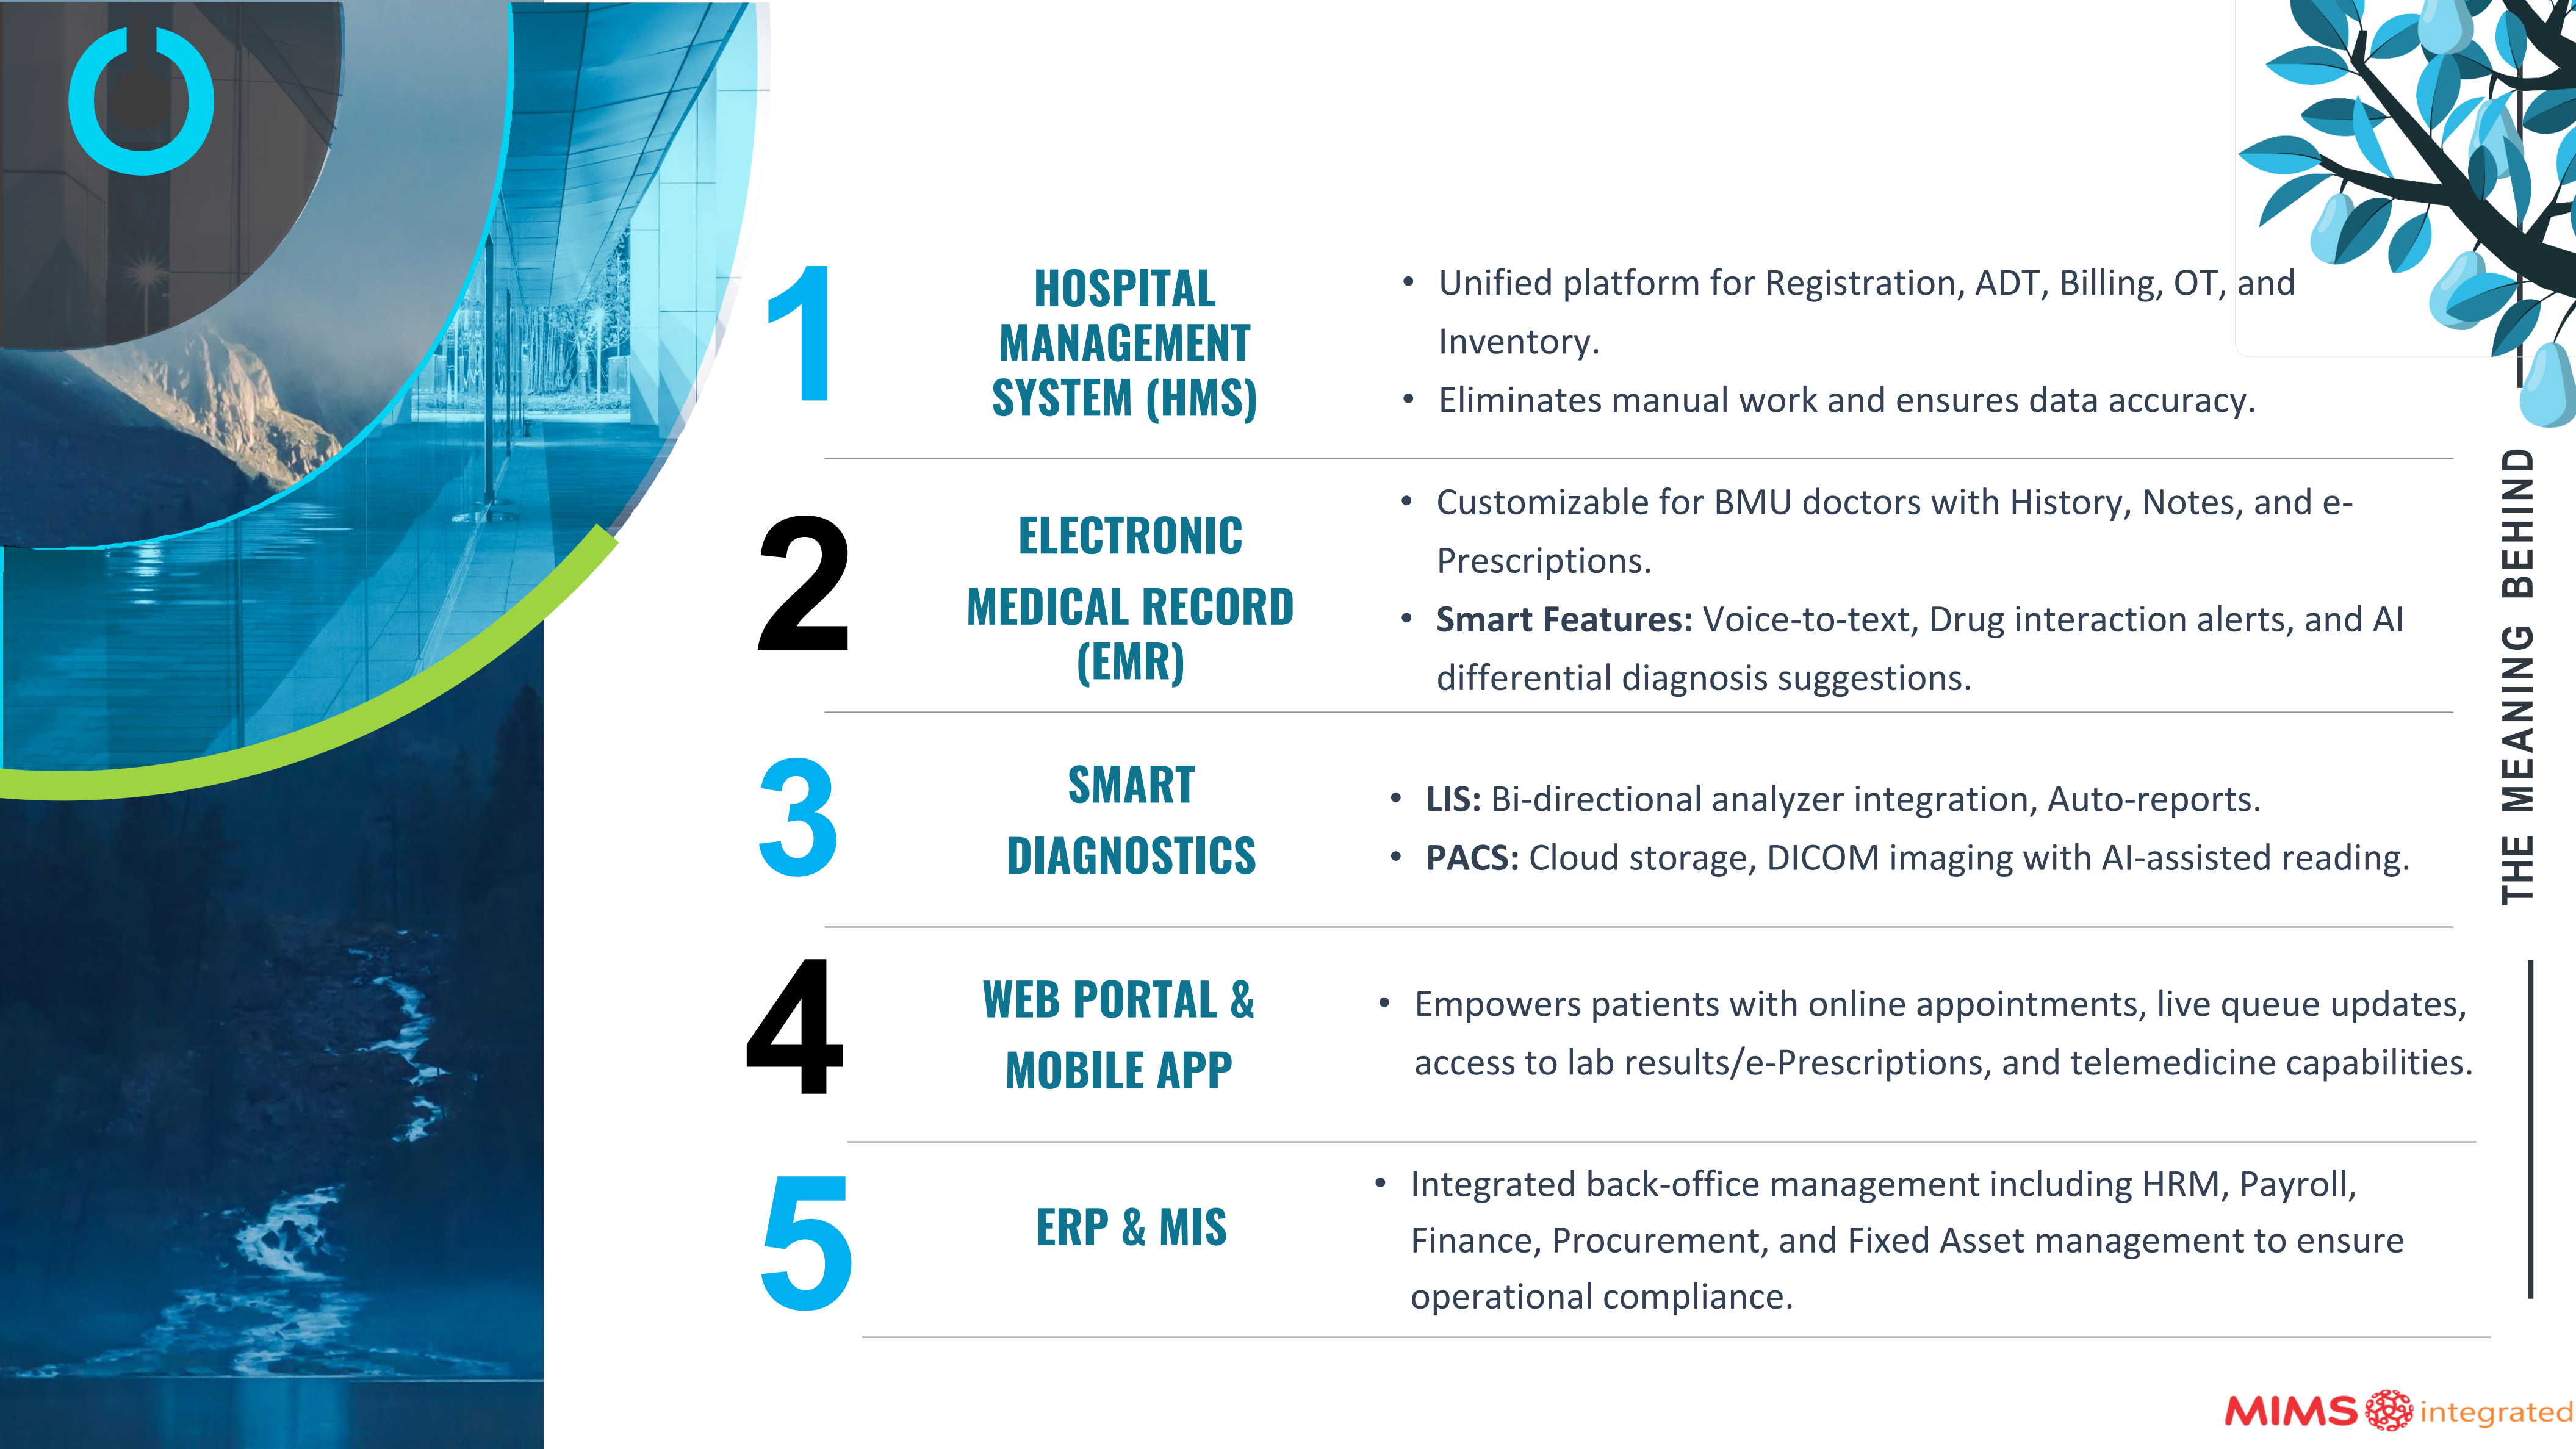

MacroHealthPlus is working for the healthcare organizations with the systems that ensure accurate preservation and easy access to patients' treatment records.

03

PURPOSES

Demonstrate smart technologies in a controlled environment, creating a national benchmark and building BMU's capacity for digital ecosystems.

1

HOSPITAL MANAGEMENT SYSTEM (HMS)

- Unified platform for Registration, ADT, Billing, OT, and Inventory.
- Eliminates manual work and ensures data accuracy.

2

ELECTRONIC MEDICAL RECORD (EMR)

- Customizable for BMU doctors with History, Notes, and e-Prescriptions.
- **Smart Features:** Voice-to-text, Drug interaction alerts, and AI differential diagnosis suggestions.

3

SMART DIAGNOSTICS

- **LIS:** Bi-directional analyzer integration, Auto-reports.
- **PACS:** Cloud storage, DICOM imaging with AI-assisted reading.

4

WEB PORTAL & MOBILE APP

- Empowers patients with online appointments, live queue updates, access to lab results/e-Prescriptions, and telemedicine capabilities.

5

ERP & MIS

- Integrated back-office management including HRM, Payroll, Finance, Procurement, and Fixed Asset management to ensure operational compliance.
